Helen Dowdell  
Wheeldestrian

Dear Helen,

I am writing in support of the Wheeldestrian initiative by Mobility Unlimited Technology Worldwide. As someone who supports and stands by the mission for making the world a safer place, I believe your efforts on this groundbreaking endeavor that introduces innovative and inclusive technology that refines our understanding of mobility and safety goes hand in hand. I wish you the best as you advocate for this mission to make a real impact in our community.

Sincerely,

A handwritten signature in black ink, appearing to read 'C. Farmer', with a large, sweeping flourish extending to the right.
